Is my USA email address and Mastersoft account the same?

Students · https://usa.edu.ph/faqs/is-my-usa-email-address-and-mastersoft-account-the-same/

UNIVERSITY STUDENTS:

No, they are not the same. Your USA email address is specifically designated for accessing platforms like NEO LMS, Google Drive, email, and other related services. On the other hand, your Mastersoft account is primarily used for checking your class schedules, grades, payments, and other academic records. Each account has its own set of credentials, meaning your login details for one will not work for the other. It is important to keep track of both credentials to ensure seamless access to these university resources.
